

Financial Procedures Policy 2021/22

Review date : Autumn 2022

1. INTRODUCTION.

Academy Trusts are companies limited by guarantee and, under the terms of the Academies Act 2010, exempt charities. The Board of Trustees (the Board) of the Flying High Trust Partnership (the Trust) are therefore subject to the duties and responsibilities of charitable trustees and company directors as well as any other conditions that the Secretary of State agrees with them.

The Board has responsibility under statute for ensuring that the Trust's funds are used only in accordance with the law, their powers under the Funding Agreement (including the Trust's Articles of Association which sets out the powers of the Trust and its governance arrangements), and the Education Skills Funding Agency (ESFA) Academies Financial Handbook.

The Board have wide discretion over the use of the Trust's funds. They are responsible for the proper stewardship of those funds and for ensuring value for money in their use through the principles of economy, efficiency and effectiveness. They must also ensure that any discretion is used reasonably and takes into account any and all relevant guidance on accountability and propriety.

The Board recognise the need for good financial control over the Trusts' resources and has formulated this policy in order to achieve the required standards of financial management across the Trust. The Policy also provides a standardised approach to all finance related tasks within the Trust and its academies.

This policy should be used in conjunction with the Academy Trust Handbook.

This policy applies across the Trust, and adherence to its principles and procedures is mandatory for all Trustees, Governors and staff.

- 9.9 All corporate charge cards must be held securely when not in use either by the cardholder or within the school in a secure location where there is limited access.
- 9.10 Any misuse of the card(s) outside of the conditions of use will result in the immediate withdrawal of the card(s) from the cardholder(s). The Headteacher will take appropriate action.
- 9.11 The loss of any card(s) must immediately be reported to the bank, Headteacher and Director of Business & Finance.
- 9.12 When a cardholder leaves the school, or the card is no longer required, the school office lead must notify the Director of Business & Finance and request that the card is cancelled and the account closed. Cards and PIN numbers must be destroyed and securely disposed of in accordance with bank guidance.
- 9.13 Card(s) must not be used for the withdrawal of cash through any ATM or cash back facilities.
- 9.14 Corporate charge cards must not be used for personal purchases.
- 9.15 The use of corporate charge cards for ordering goods and services shall operate in conjunction with the principles of best value and should not be used to pay for goods/services where a 30 day supplier credit account is or should be in place.
- 9.16 The corporate charge card(s) should not be used until confirmation has been made with the relevant budget holder that there is budget available under the budget heading to cover the cost of the proposed expenditure. Confirmation should also be sought that there are sufficient balances in the bank account prior to the use of cards.

- 9.17 A record of expenditure incurred together with supporting vouchers or receipts should be maintained by the cardholder(s), including a valid VAT receipt where relevant. These should be submitted to the school office lead for the purpose of checking payments made and recording the transaction on the accounting system (PSF).
- 9.18 Any corporate charge card balances should be cleared in full by direct debit from the school bank account by the due date.

10. PERSONNEL AND PAYROLL

- 10.1 Each Local Governing Body must establish procedures for the administration of personnel activities, including appointments, terminations and promotions in accordance with the Trust Pay Policy.
- 10.2 The Headteacher will ensure that the duties of authorising appointments, making changes to conditions or terminating the employment of staff are separated from the duties of processing payroll notifications and claims wherever possible.
- 10.3 The Headteacher will ensure that all processes in relation to completing, checking and authorising any documents and claims related to appointments, terminations of employment and expenses are carried out by more than one person.
- 10.4 Details of staff able to authorise any documents and claims should be forwarded to the Trust's payroll bureau, including specimen signatures where required.
- 10.5 The Headteacher will ensure that personnel records are kept securely and only authorised personnel have access to them.
- 10.6 All payments to individuals should be made through the payroll system except where an employment self-assessment questionnaire has been completed and the Headteacher is satisfied from reading the guidance that the contract is one of self-employment.
- 10.7 The Headteacher will maintain a list of all staff employed at the school. This will be updated on a termly basis to reflect new starters and leavers.
- 10.8 The Headteacher will ensure that monthly payroll checks are carried out and evidenced on payroll transactions against the schools' documentation on staffing and pay to ensure they match.

10.9 The Headteacher will ensure that budgetary implications are considered in all personnel and payroll planning and decision making, and that the budget planning software is maintained and updated in a timely manner to reflect current and future financial impact.

11. PETTY CASH

11.1 A petty cash account up to a maximum **£100** may be held. This will be held securely and only staff authorised by the Headteacher will have access to it.

11.2 Payments from the petty cash account will be operated on the imprest principle, reimbursed to the predetermined limit on a monthly basis in line with the expenditure incurred during the previous month.

11.3 Payments from the petty cash account will be limited to minor items of expenditure. These will be supported by receipted invoices or vouchers, identifying any VAT paid, which must be separately accounted for.

11.4 Proper records will be kept of all reimbursements paid into and expenditure paid out of the petty cash account.

11.5 Personal cheques must not be cashed from the petty cash account.

11.6 Petty cash accounts will be reconciled to the bank account on a regular basis (not less frequently than monthly).

11.7 Reconciliations on the account will be subject to review by an independent person.

12. VAT PROCEDURES

12.1 The Trust is not currently registered for VAT. This situation is kept under regular review by monitoring the level of business income the MAT receives. The MAT will review the partial exemption calculation on an annual basis.

12.2 VAT is reclaimed on a monthly basis by the central finance team. A report is run for each academy for the relevant financial period on PSF, to provide the data necessary for the completion of the VAT126 reclaim form.

12.3 Where invoices relate partly to business activity and non-business activity only the proportion of VAT relating to non-business activity can be reclaimed. A 1% deduction is made from all VAT claims submitted to reflect an estimate of business use across the Trust. Journals are done on PSF to transfer the VAT not being reclaimed from the VAT control account back to the relevant expenditure nominal ledger code.

13. SECURITY OF ASSETS, STOCK AND OTHER PROPERTY

- 13.1 The Headteacher is responsible for ensuring that assets, stock, cash and other property belonging to the school is kept in safe custody.
- 13.2 The Headteacher will ensure that stock levels are maintained in such a way to ensure continuity and availability of materials; maximum efficiency of annual budgets; good condition of stock and efficient use of storage capacity. Independent physical checks should be made of significant stocks no less than annually against stock records.
- 13.3 The Headteacher will ensure that an inventory is maintained of all portable, desirable, valuable and uniquely identifiable items. This will include details of serial numbers, make and model where applicable. All such items will be security marked as being the property of the school.
- 13.4 An annual check of the inventories against items physically held will be undertaken by an independent person and documented. All discrepancies identified on this check will be investigated reported to the Local Governing Body.
- 13.5 Where school property is loaned to staff or pupils and taken off site it will be recorded in a loan of equipment register. This will include the date of the loan, return and signature of the person borrowing the equipment. Any such loans should be authorised by Headteacher or their nominated representative.
- 13.6 If stocks or equipment are surplus, obsolete, damaged, not traceable or stolen, the Local Governing Body will authorise the write-off and sale or disposal.
- 13.7 Safes and secure cupboards/cabinets will be kept locked, the keys removed and held in a secure location as determined by the Headteacher.

14. INSURANCE

- 14.1 The Director of Business and Finance, in consultation with relevant school staff will ensure that adequate insurance is taken out to cover risks to which the Trust and schools are exposed. An annual review of all risks will be conducted to ensure that an appropriate level of cover is maintained.

- 14.2 The Local Governing Body will review all risks not covered on an annual basis and advise the Director of Business and Finance whether additional cover should be taken out.
- 14.3 The Headteacher will ensure that the Director of Business and Finance is notified of all new risks, additions and alterations which require insurance or affect the school's existing insurance arrangements.
- 14.4 No indemnity will be given to any third party without the written consent of the Board of Directors.
- 14.5 The Headteacher will ensure that the Director of Business and Finance is immediately informed of any accident, loss or other incident that may give rise to an insurance claim.

15. SCHOOL AND OTHER PRIVATE FUNDS

- 15.1 The Headteacher will ensure that any voluntary funds are properly accounted for and independently audited.

Appendix A

TENDERING POLICY

All goods and services with a value over £35,000 must be subject to formal tendering procedures. Intended purchases or contracts for supplies and services with an estimated value above £181,302 (determined as at 1st January 2018) or more must observe European Union law and must be advertised in the Official Journal of the European Union. Guidance on the OJEU thresholds is given in the Academies Financial Handbook. Advice should be obtained from a Senior Finance Business Partner prior to any communication with suppliers when ordering goods which may potentially be over £35,000. This is to ensure that correct procedures are followed from the outset.

Forms of Tenders

There are three forms of tender procedure: open, restricted and negotiated. The guidance for circumstances in which each procedure should be used are described below.

Open Tender

This is where all potential suppliers are invited to tender. The budget holder must discuss and agree with the Senior Finance Business Partner how best to advertise for suppliers e.g. general press, trade journals Trust website or to identify all potential suppliers and contact directly if practical. This is the preferred method of tendering as it is most conducive to competition and the propriety of public funds.

Restricted Tender

This is where suppliers are specifically invited to tender. Restricted tenders may be appropriate where:

- there is a need to maintain a balance between the contract value and administrative costs
- a large number of suppliers would come forward or because the nature of the goods are such that only specific suppliers can be expected to supply the Trust / School's requirements
- the costs of publicity and advertising are likely to outweigh the potential benefits of open tendering

Negotiated Tender

The terms of the contract may be negotiated with one or more chosen suppliers. This may be appropriate in specific circumstances:

- the above methods have resulted in either no or unacceptable tenders
- only one or very few suppliers are available
- extreme urgency exists

- additional deliveries by the existing supplier are justified

Preparation for Tender

Full consideration may be given to:

- objective of project
- overall requirements
- technical skills required
- after sales service requirements
- form of contract.

It may be useful after all requirements have been established to rank requirements (e.g. mandatory, desirable and additional) and award marks to suppliers on fulfilment of these requirements to help reach an overall decision.

Invitation to Tender

If a restricted tender is to be used then an invitation to tender should be issued. If an open tender is used an invitation to tender may be issued in response to an initial enquiry.

An invitation to tender may include the following:

- introduction/background to the project;
- scope and objectives of the project;
- technical requirements;
- implementation of the project;
- terms and conditions of tender and
- form of response.

Aspects to Consider

Financial

- Like should be compared with like and if a lower price means a reduced service or lower quality this must be borne in mind when reaching a decision.
- Care should be taken to ensure that the tender price is the total price and that there are no hidden or extra costs.
- Is there scope for negotiation?

Technical/Suitability

- Qualifications of the contractor
- Relevant experience of the contractor
- Descriptions of technical and service facilities
- Certificates of quality/conformity with standards

- Quality control procedures
- Details of previous sales and references from past customers.

Other Considerations

- Pre sales demonstrations
- After sales service
- Financial status of supplier. Suppliers in financial difficulty may have problems completing contracts and in the provision of after sales service. It may be appropriate to have an accountant or similarly qualified person examine audited accounts etc.

Tender Acceptance Procedures

The invitation to tender should state the date and time by which the completed tender document should be received by the Trust. Tenders should be submitted in plain envelopes clearly marked to indicate they contain tender documents. The envelopes should be time and date stamped on receipt and stored in a secure place prior to tender opening. Tenders received after the submission deadline should not normally be accepted and any reason for accepting them should be recorded.

Tender Opening Procedures

All tenders submitted should be opened at the same time and the tender details should be recorded. Two persons should be present for the opening of tenders, either the Senior Finance Business Partner, Operations Manager, School Office Lead or the Headteacher plus a member of the Finance & Personnel Committee.

A separate record should be established to record the names of the firms submitting tenders and the amount tendered. This record must be signed by both people present at the tender opening.

Tendering Procedures

The evaluation process should involve at least two people. Those involved should disclose all interests, business and otherwise, that might impact upon their objectivity. If there is a potential conflict of interest then that person must withdraw from the tendering process.

Those involved in making a decision must take care not to accept gifts or hospitality from potential suppliers that could compromise or be seen to compromise their independence.

Full records should be kept of all criteria used for evaluation of contracts over £25,000 and a report should be prepared for the Finance & Personnel Committee highlighting the relevant issues and recommending a decision for approval by the Board of Trustees

Where required by the conditions attached to a specific grant from the DFE, the department's approval must be obtained before the acceptance of a tender.

The accepted tender should be the one that offers best value to the School. All parties should then be informed of the decision.

Emergency works

Competition may be waived when there is an urgent need to engage a contractor or to purchase materials to carry out emergency remedial works. An emergency situation may include:

- Significant safeguarding or health & safety risks
- Potential for a school closure

In these instances, the relevant member of the Trust central SLT will seek the approval of the Board of Trustees to proceed. Wherever possible, written formal quotations based on a specification will still be obtained.

FHT Expenses Policy

Introduction

1. The principle of this policy is to ensure that staff and Trustees are reimbursed for all necessary expenditure reasonably incurred in the performance of their Trust duties. The basis of expense claims will be actual expenditure up to limits as specified in the policy; limits will be reviewed annually. All staff are expected to adopt the principles of best value.
2. Expenses can only be claimed in accordance with this policy.
3. Staff must seek budget holder approval for any expenditure they incur which they wish to be reimbursed. Verbal approval must be sought for items up to £50. An official order form must be signed off by the appropriate budget holder before any items over £50 are purchased through expenses.
4. School staff expense claims must be approved by the Headteacher and a VAT receipt and order form attached where appropriate. Headteacher expenses should be approved by the Chair of Governors or senior member of the Trust (CEO, DCEO or Director of Business & Finance). Trust central team expenses must be approved by their line manager and authorised by the Director of Business & Finance.
5. Original receipts must accompany all claims. Credit card slips, credit card statements and bank statements will not be accepted as evidence of business expenditure. If there is no evidence to support the expenditure incurred, then it will not be reimbursed and should not be claimed.
6. A VAT receipt must include the name and address of retailer, the retailers VAT registration number, the date of the purchase, details of what goods and/or services have been purchased and the VAT inclusive value of those goods in sterling.
7. Expense claims must be submitted by the 9th of the following month in which the expenses are incurred.
8. The Trust reserves the right to withhold payment of expenses that are not submitted within a reasonable due date. Expenses submitted more than three months after the date incurred will not be reimbursed unless specifically approved by the Chief Executive, Director of Business & Finance or Chair of Trustees.

Business travel

9. Claims for travel expenses should be for the standard rail fare or bus fare. First class travel is not permitted. Should a staff member or Trustee choose to travel first class they will only be reimbursed for the standard fare amount.
10. Wherever practicable video/telephone conferencing facilities should be used as an alternative to travel. The overriding consideration is planning any journey is the balance between least costs and convenience.
11. Public transport is the Trust's preferred method of transport where train or bus fare, along with any required taxi or tube fares will be significantly less than the cost incurred for mileage if travelling by car.
12. Hire cars can be used for business travel where public transport is not practical and the staff members own vehicle is in an off road state and a courtesy car is not provided by their insurance. Standard or Group C cars should be used. All car hire needs to be authorised by the Chair of Trustees. Fuel will be reimbursed as per section 3 (Mileage).

Mileage

13. Business mileage may be claimed where public transport is not possible or is not cost effective.
14. Business mileage will be paid in respect of any work related journeys they are required to undertake to attend a location other than their normal place of work.
15. Staff or Trustees who use their own vehicle for work should ensure they have the appropriate insurance to cover business travel. This is normally referred to as 'Business, Social and Domestic' cover by Insurance companies. It is the employee's responsibility that they are insured.
16. Claims for mileage must include the date of travel, the starting point, the destination(s) plus the return point. Claims should also detail the purpose of the journey. Fuel VAT receipts which cover the amount of mileage claimed must be submitted with the relevant expense claim.
17. Mileage will be calculated from the staff member's base of work (as set out in their contract of employment) or the allocated mileage base for members of the Trust central team, to the destination(s) and back to the work base. For Trustees, the normal base of work is determined as the Trust's registered office.

18. Travel from home to the normal place of work is not business travel. If an employee or Trustee travels directly from their home to a place other than the normal place of work on business, the allowance travel will be the lesser of that actually incurred and that which would be incurred if the journey had started or finished at the normal place of work.
19. Claims up to 10,000 business miles in any one year will be paid at the HMRC rate. Where mileage claims exceed 10,000 miles in any one year then the lesser HMRC rate will be applied.
20. When staff are aware that other staff members are travelling to the same destination, every reasonable attempt should be made to car share.

Accommodation

21. Where staff or Trustees are required to stay overnight on approved Trust business, then overnight accommodation will be provided. Approval for overnight accommodation must be sought in advance from the appropriate line manager.
22. A daily maximum limit of £90 has been set for overnight accommodation, and staff should seek to stay at accommodation where the Trust has agreed rates. If accommodation cannot be secured at this rate, then prior authorisation will be required from either the Director of Business & Finance, Chief Executive or Chair of Trustees.

Subsistence

23. Where a staff member or Trustee is required to work away from their normal base of work or other Trust locations (i.e. other schools or Trust offices) to perform their role, they may claim reasonable subsistence costs. For the purposes of this policy, subsistence is defined as meal costs. Other types of allowable subsistence e.g. travelling costs, parking etc are covered elsewhere in this policy.
24. A valid VAT receipt must support any claim for the reimbursement of subsistence costs to evidence that the expenditure has been incurred. In order to ensure that excessive costs are not incurred, the Trust has set maximum limits that can be claimed and these are categorised below.
25. In all cases, reimbursement will be made at the lower of actual expenditure incurred and the maximum limits set.
26. Staff or Trustees can only claim daily subsistence costs if they are required to work away from their normal work base or other locations within the Trust (i.e. other schools or Trust offices). The breakfast and late evening meal

rates are intended for use in exceptional circumstances only, and are not intended for employees with regular early or late work patterns.

27. Breakfast – a maximum of £5 can be claimed. This can only be claimed if staff or Trustees are required to leave home earlier than 6am and incur the cost of breakfast taken away from their home after qualifying journey has started. If an employee usually leaves home before 6am, then the breakfast rate does not apply.
28. Lunch – a maximum of £7.50 can be claimed. Claims can be made if staff or Trustees have undertaken qualifying travel for a period of at least 5 hours and have incurred the cost of a meal. A lunch rate can be also be claimed where staff have attended an all-day meeting or training event that is away from the normal place of work or other Trust locations (i.e. other schools or Trust offices) and where lunch is not provided.
29. Evening meal – a maximum of £15 can be claimed. Claims can only be made where staff are required to stay overnight on approved Trust business and have incurred the cost of an evening meal.
30. The maximum total daily allowance that can be claimed is £27.50.
31. The receipt for subsistence claims cannot be for food and refreshments ordered for delivery to a staff member or Trustee's home address or purchased elsewhere and consumed at home. Reimbursement for alcohol is not permitted.

Parking

32. Parking charges incurred on approved Trust business will be reimbursed against the production of the relevant parking receipt and submission on an authorised expenses form.
33. No reimbursement will be made in respect of parking and similar fines.

Expenses incurred for business meetings

34. It is expected that food and refreshments for internal meetings are provided at a personal cost even where these are held at external venues.
35. Where it is necessary to hold an internal meeting during a normal meal time (i.e. breakfast – before 7.30am, lunchtime – between midday and 2pm, or evening – after 7.30pm) and it is not practical to expect staff to bring their own food, then appropriate food may be provided and charged to the Trust.

36. Wherever possible the meeting should be held on Trust premises and food provided by preferred caterers and invoiced directly to the Trust.

Hospitality: Entertaining business contacts

37. The Trust recognises that it may be necessary to provide hospitality to external business contacts. Where meetings are held on Trust premises, food should be provided by preferred caterers and invoiced directly to the Trust as outlined in point 36.

38. Where it is deemed necessary to meet external parties off site, then hospitality may be provided e.g. non-alcoholic refreshments, working lunches etc. and the cost of these can be claimed up to the maximum value of £25.00 per day. The purchase of alcohol will not be reimbursed.

39. Staff receiving gifts or hospitality must ensure that this is in accordance with the Trust Gifts and Hospitality policy.

Resources

40. Resources that are fundamental in order for staff to perform their role should be purchased through the normal procurement procedures operated by the school office or central finance team. Details of this are outlined in section 6. Where it is identified that this is not appropriate, then prior to incurring any expenditure, approval should be sought for the purchase of any resources as outlined in point 3 of this expenses policy.

Method of claiming

41. Expenses should be claimed on a monthly basis by completing a Trust expenses claim form, attaching the relevant VAT receipts to support all expenditure incurred or subsistence claims made. All expense claims must be signed by the member of staff or Trustee to verify the expenses being claimed are in accordance with this policy.

42. All claims must be checked and authorised by an authorised officer as outlined in the Trust Financial Procedures Policy.

43. Claims must not be made or approved if they do not meet the conditions set out in this policy.

Summary of rates applicable

44. The maximum rates applicable from 1 September 2021 are detailed below:

Public Transport (inc. rail travel)	Standard fares

GIFTS AND HOSPITALITY POLICY

Introduction

As a general guideline, business gifts and hospitality should not be accepted by any member of staff, Governor or Trustee, except as provided for below.

The intention of the Policy is to ensure that the Trust can demonstrate that no undue influence has been applied or could be said to have been applied by any supplier or anyone else dealing with the Trust. The Academy and Trust should be able to show that all decisions are reached on the basis of value for money and for no other reason.

Any breach of this Policy could lead to disciplinary action and may constitute gross misconduct.

General

Staff, Governors and Trustees shall not use their authority or office for personal gain and shall seek to uphold and enhance the standing of the Trust by:

- maintaining an unimpeachable standard of honesty and integrity in all their business relationships
- complying with the letter and spirit of the law in contractual obligations, rejecting any business practice that might be deemed improper
- at all times in their business relationships, act to maintain the interests and good reputation of the Academy

Any employee who becomes aware of a breach of Policy must either report this immediately to his or her manager who will instigate investigations as necessary.

Any personal interest that may impinge or might reasonably be deemed by others to impinge on an employee's impartiality or conflict with the duty owed to the Academy in any matter relevant to an employee's duties (such as conflicting business interests) should be declared in writing. Any member of staff, Governor or Trustee who is aware of any business dealings conferring personal gain, or involving relatives or associates of members of staff must supply

details of such transactions to the Director of Business and Finance for entry into the Register of Business Interests.

Employees are permitted to accept gifts, rewards or benefits from pupils, members of the public or organisations with which the Academy / Trust has official contacts, only where they are isolated gifts of a trivial character, or inexpensive seasonal gifts (such as chocolates, flowers, diaries or calendars). Therefore, gifts should not be accepted if they appear to be disproportionately generous or could be construed as an inducement to effect a business decision.

Where purchased items include a "free gift", such a gift should be either used for Academy business or handed to the Academy to be used at charity raffles, pupil prizes, etc.

In relation to conventional hospitality (lunches, outings, tickets for events, etc), these may be accepted provided that it is normal and reasonable in the circumstances. However, invitations for the following should not be accepted:

- where there is no reasonable business justification for doing so
- where an invitation is disproportionately generous
- where the invitation could be seen as an inducement to affect a business decision.

Any hospitality other than of a nominal value (estimate of £50.00) or facilities provided during the normal course of business, should be reported to the Director of Business and Finance for entry into the Gifts and Hospitality Register.

ANTI-FRAUD POLICY

The Trust has a duty to protect public assets; to ensure that management and other practices accord with the standards of probity expected of public sector bodies; and to ensure that the resources available to it are used only in furtherance of the Trust's objectives as an educational body. Fraud, corruption, or any other kind of financial misconduct or irregularity cannot be tolerated.

An irregularity may be defined as any breach of the standards of financial integrity required by the Trust, including a breach of the financial regulations. This includes any instance, which has been made possible due to the actions or inactions of a member of staff even if there was no gain to them.

Irregularities fall broadly within the following categories, the first three of which are criminal, as well as disciplinary, offences ('person' includes corporate bodies, including limited companies, local authorities, other employees and students):

Theft: the dishonest taking of property belonging to another with the intention of depriving that person permanently of its possession.

Fraud: the intentional distortion of financial statements or other records by persons external or internal to the Academy, to conceal the misappropriation of assets or otherwise. This includes the distortion of records to conceal losses caused accidentally or by a third party.

Bribery: the receiving of an inducement for an action which is illegal, unethical or in breach of trust.

Corruption: the offering, giving, soliciting or acceptance of an inducement or reward that may influence the actions of any person. Both parties are equally guilty of an offence.

Other irregularity: failure to observe the Trust's financial regulations, policies and procedures. This includes failure to take appropriate action after becoming aware of such failure by another person.

The aftermath of financial misconduct is costly, time-consuming, disruptive and unpleasant. The major thrust of the Trust's strategy is therefore, prevention.

1. Prevention

1.1 Risks

Examples of common types what could constitute fraud are:

- Theft of cash
- Non-receipt of income
- Substitution of personal cheques for cash
- Travelling and subsistence claims for non-existent journeys / events
- Travelling and subsistence claims inflated
- Manipulating documentation to increase salaries / wages received e.g. false overtime claims
- Payment for goods received by an individual rather than the Trust or Academy
- Failure to observe, or breaches of, regulations and /or other associated policies or regulations laid down by the Trust
- Unauthorised borrowing of equipment
- Breaches of confidentiality regarding information
- Failure to declare a direct pecuniary or otherwise conflicting interest
- Concealing a generous gift or reward
- Unfairly influencing the award of a contract
- Creation of false documents
- Deception
- Using position for personal reward

The above list is not exhaustive and fraud and corruption can take many different paths. If any doubt about whether a matter is an irregularity or not, clarification must be sought from the Director of Business and Finance.

The largest irregularities in educational establishments typically have involved regular misappropriations over a period of years. The three areas most vulnerable to fraud in schools are cash handling, cheque handling and the operation of the purchase ledger. The misuse of information technology is also a major risk and one that is potentially growing in importance with the increase in technology.

1.2 Procedures/Systems to deal with risks

Fraud can be minimised through carefully designed and consistently operated management procedures, in particular, financial policies and procedures and Financial Regulations. The Trust will therefore ensure that management procedures, as described below, are effective and that staff receive training in the operation of them.

Segregation of duties in use of financial systems is practiced, so, for example, no individual has undue management of payments, income or assets.

The institution has clear roles and responsibilities, with set levels of authority for authorising transactions

Systems will be protected with electronic access restrictions to prevent the possible misuse of information technology.

1.3 Leadership

Key determinants of the standards of behaviour in any organisation will be the standards observed by senior members of staff, and the policies and approach to their enforcement promoted from the senior staff. The Trust's Board of Trustees and Senior Managers should therefore ensure that their behaviour is always demonstrably selfless.

The Trust has clear policies on the registration and declaration of interests, accepting hospitality and gifts, and purchasing regulations (within the Finance policy) and these need to be observed, and seen to be observed.

1.4 Prosecution of offenders

The Police advise that prosecution is a particularly effective deterrent because of the risk of a custodial sentence and a criminal record. However, the threat of prosecution only deters if the threat is real. Therefore, the policy is that the Trust reserves the right to report to the Police. The Trust will undertake disciplinary action, and reserves the right to take legal action, in addition to reporting offenders to the Police.

1.5 Employee Screening

Potential new members of staff will be screened before appointment, particularly for posts with financial responsibility. For example:

- references should cover a reasonable, continuous period; and any gaps should be explained;
- an official employer's reference should be obtained;
- offers of appointment to be made subject to receipt of satisfactory references and any doubts about the contents of the reference should be resolved before confirming the appointment. If this is done by telephone, a written record of the discussion should be kept to comply with employment law
- essential qualifications and DBS checks are made

Recruitment procedures require that members of recruitment panels will declare any relationships or connections with candidates prior to their involvement with the process.

1.6 The Role of Auditors

The Board of Trustees would seek to involve internal and/or external audit to advise on building in ways of preventing or detecting fraud when new systems are being designed or existing systems are to be modified. Auditors will have regard to fraud preventative measures as part of its ongoing work.

External audit's reviews of financial checks and balances and validation testing provide further deterrence. Auditors may also wish to assess systems in place to deter corruption.

Both internal and external auditors have a full right of access at all reasonable times to all Trust property, assets, documents and financial and other records. The auditors are also entitled to seek explanations from any member of the Trust's staff.

In addition, the Trust will regard the misleading of auditors, including the withholding of relevant information, as gross misconduct in its own right.

2. Detection and Reporting of Suspected Financial Irregularity

2.1 Internal Management Systems

Efficient management systems are imperative if fraud is to be detected rapidly; the systematic review of every transaction minimises the risk of processing an irregular transaction. Detective checks and balances will be designed into all systems and applied consistently. This includes segregation of duties, reconciliation procedures, random checking of transactions, and review of management accounting information, including exception reports.

2.2 Public Interest Disclosure ('Whistleblowing') Procedure

If an individual has reason to suspect that fraud is taking place (or has taken place), they are expected to bring it to the attention of Trust authorities as described in the Trust's Whistleblowing Policy. This describes to whom an individual should report their suspicions, and the protection offered to employees raising such a suspicion.

2.3 Potentially Suspicious Behaviour

Staff members who have committed serious financial irregularities may attempt to conceal this by taking few holidays, regularly working alone late or at weekends, being resistant to delegation or resenting questions about work. If any suspicions are raised they should be discussed with the Chief Executive or the Director of Business and Finance. Any indication that a member of staff may be addicted to drugs, alcohol or gambling should also be discussed with the Chief Executive or the Director of Business and Finance. This is both for the welfare of the individual and to minimise the risks to the Trust, which might include fraud. Any action should be taken with an assessment of the scale of risk in mind.

Any suspicion will be investigated and dealt with in accordance with the procedure described in Section 3.

3. Investigation of Suspected Irregularity

Once an irregularity is suspected, reported or disclosed, whether it relates to fraud, a whistleblowing disclosure or an ethical issue, it is critical that any investigation is conducted in a professional manner, in accordance with the following procedures.

The Chief Executive or the Director of Business and Finance should be informed of a suspected irregularity without delay. At this point, the circumstances and nature of the matter raised and the remedies being sought will be taken into account in determining the course of action to be taken which is likely to be one or more of the following:

- The Chief Executive can immediately refer the matter to another appropriate external authority such as the Police or a professional body.
- The matter can be referred to an individual, an Investigating Officer, appointed by the Chief Executive, who has the appropriate expertise and seniority to decide whether there is a prima facie case to answer. In cases of fraud, this will normally be the Director of Business and Finance. The Director of Business and Finance, with the Chief Executive, will decide whether an investigation should be conducted and if so, the remit of the investigation, who should undertake the investigation, what form it should take and the scope of the concluding report. Internal investigations will be conducted in a manner which ensures that those involved in the investigation will be different from those who may be required subsequently to conduct any disciplinary proceedings.
- Some special investigations may require the use of technical or specialist expertise in which case an external specialist (such as the Responsible Officer or external auditor) may be employed as the Investigating Officer or to contribute to the investigation.
- The report of the investigation may conclude that there is no case to answer or that disciplinary procedures should be applied or that there should be some other special investigation, either internal or external. If it is decided that more than one of these means is appropriate, the Director of Business and Finance, with the Chief Executive should satisfy themselves that such a course of action is warranted.
- In some circumstances, it may be appropriate for the Chief Executive to liaise directly or indirectly with the parties involved to seek a resolution. Should a satisfactory resolution not be attainable through these means, one of the alternative courses of action set out above may then be followed.

The Chief Executive will normally inform the Chair of the Board of Trustees and the Chair of the Audit Committee that an investigation is taking place.

At an appropriate point in time, the Chief Executive will (subject to the potential materiality of the irregularity with respect to damage to the reputation of the institution and/or financial loss) consider informing:

- The Trust's Insurers

- The Chair of the Board of Trustees
- The Trust's External Auditors

In the event that it is not appropriate to disclose information to the Chief Executive, concerns will be raised directly with the Chair of the Audit Committee, if the issue falls within the purview of that Committee, or the Chair of the Board of Trustees.

Should any officer responsible for this procedure be implicated in any way or have or be perceived to have any potential conflict of interest in an allegation of fraud, he or she will not take part in the procedure, the role being taken by an appropriate alternate.

Any investigation will be carried out in accordance with the principles of natural justice, and with due regard to the statutory rights of all individuals involved in the case. The Trust will take all reasonable measures to ensure that an investigation is concluded as quickly as possible. If information was disclosed or reported by an individual(s) initially they will be kept informed of what action, if any, is to be taken. If no action is to be taken the individual concerned will be informed of the reason for this.

If the decision is reached that there is a prima facie case to answer, the person or persons implicated will be informed of this, shown the supporting evidence and be offered an opportunity to respond as part of the investigation.

If the person reporting the irregularity or making the disclosure is dissatisfied with the procedures followed or the outcome of this process, they may take out a plea of grievance.

4. Prevention of Further Loss

Where the case is sufficiently serious, an individual who is accused of fraud may be suspended, with or without pay, while an investigation is under way, in accordance with the Trust's disciplinary procedures. The Chief Executive will be consulted before any such action is taken. It should be noted that suspension is a neutral act intended to facilitate enquiries, and does not imply any presumption of guilt.

If the individual under suspicion is to be suspended it may be necessary to plan the timing of suspension to prevent the suspect from destroying or removing evidence that may be needed to support disciplinary or criminal action. The suspect should be approached unannounced. They should be supervised at all times before leaving the Trust's premises. They should be required to reveal relevant computer passwords, and not remove, either on disk or electronically, data from the premises. They should be allowed to collect personal property under supervision, but should not be able to remove any property belonging to the Trust. Any security passes and keys to premises, offices and furniture should be returned.

The terms of suspension should also bar staff from contacting colleagues about any work related matter without the written consent of the Chief Executive. Should suspended staff breach the terms of suspension, this should be grounds for disciplinary action in its own right.

The ICT Manager should be instructed to immediately withdraw access permissions to the Trust's computer systems.

The Investigating Officer shall consider whether it is necessary to investigate systems other than that which has given rise to suspicion, through which the suspect may have had opportunities to misappropriate the Trust's assets.

5. Establishing and securing evidence

The internal auditors and/or management will:

- maintain familiarity with the Trust's disciplinary procedures, to ensure that evidence requirements will be met during any fraud investigation
- establish whether there is a need for audit staff to be trained in the evidence rules for interviews under the Police and Criminal Evidence Act (1984)
- ensure that staff involved in fraud investigations are familiar with and follow rules on the admissibility of documentary and other evidence in criminal proceedings.
- Management will establish and maintain contact with the police, where appropriate. The decision will be reported to the Chair of Audit Committee.

6. Notifying the ESFA

The Academy Trust Handbook includes a requirement that:

"All instances of fraud or theft committed against the Trust, whether by employees or governors or third parties, above £5,000 must be reported by the Trust to the ESFA. Any unusual or systematic fraud, regardless of value, must also be reported."

The ESFA reserves the right to conduct or commission its own investigation into actual or potential fraud, theft or irregularity.

7. Recovery of losses

The Investigating Officer shall where possible quantify the amount of any loss. The Director of Business and Finance, with the Chief Executive, shall consider whether to, and how to go about, seeking repayment of losses.

Where the loss is substantial, legal advice will be obtained without delay about the need to freeze the suspect's assets through the court, pending conclusion of the investigation. Legal advice will also be obtained about prospects for

recovering losses through the civil court, or deducting losses from any salary payments outstanding, where the perpetrator refuses repayment. The Trust would normally expect to recover costs in addition to losses.

8. Monitoring and Review

The Audit Committee has the responsibility for implementing, monitoring and reviewing this policy. The Director of Business and Finance will make an annual report to the Audit Committee providing a summary of all issues raised and any subsequent actions taken. Any issues, which arise, which do not fall within the remit of the Audit Committee or are relevant to other areas of the Trust, will be brought to the attention of the relevant committees and /or individuals.
